

I'm not robot!

David doesn't get to talk much, instead the camera (DP John Lee) presents us with moments of his facial or bodily expression all the time, inducing us to look there for his affliction, pain, amusement or contempt. Here, the striking contrast between his outwardly impeccable behaviour and our insights into David's various inner conflicts sets in.

Gradually we realise that he cuts himself off for three purposes: to protect his actual sensibility, to hide his inner turmoil caused by the war trauma and to avoid feeling (if the denial being an integral symptom and partly a trigger of his post-traumatic stress disorder). If he did face it, he'd have to admit he's incapable of handling his himself, and if the kids others see him at his best, his fear's he will lose respect and consequently self-respect.

Apart from these social fears, opening up is also a substantial threat to his livelihood because he senses that in truth he's quite to work. (His wife talks about having covered for him repeatedly.) He simply cannot risk showing how he really feels.

Consequently, his job provides a thick bullet proof vest for all these isolating functions. It seals his chest and hides his scars, shuts out the harsh world and shuts in his hurt and stress.

But this is more than a common gag between job and private life. With his wife and kids he shares more feeling, but he hasn't reached the emotional maturity to openly share sometimes situations like distress or helplessness. At the bottom of this is not primarily his war trauma but rather his traditional sense of masculinity which also makes him his daughter but toughen up his son) be strong for the family, solve their problems (the schooling dilemma), keep yourself to yourself, never show weakness, be the provider (which he can't) that's discharged his wife that's why he wouldn't even consider trying to make his wife's income suffice).

With all his outstanding courage in action, David is terrified of crying on his wife's shoulder.

That's why he has ended up in a dismal flat all alone, suffering even more. And on top of that, during the story he is harmed again and again (spoiling of his wife's boyfriend, being shot at, losing his principal etc.), which makes for a powerful narrative and a powerful basis for empathizing with him.

To watch this character constantly fighting back his profound hurt and his vulnerability itself is heartbreaking. His body giving him away all the time is very endearing.

To understand what I mean by that, we have to be aware of yet another rift in David's disposition. Not only does he pretend to be tough outwardly while secretly feeling the opposite, there's also a rift within his pretence.

There are aspects of his appearance he's in control of, like a good part of his behaviour and most of his body language, and these he fits into position. But then there are parts he forgets to align to his pretence, there are also in his behaviour, and above all there are those less changeable features of his body (representing his basic identity), which do not fit the image. They all give him away as not so tough.

Wo de te gong ye ye (2016) Add to guide Jump to: Bridgerton, an original Netflix series based on a popular series of Regency novels written by Julia Quinn, will be available to stream beginning December 25, 2020. Is it appropriate for kids, tweens and teens? I'm answering this question and more in my spoiler free parent movie review. With a TV-MA rating that includes nudity and graphic sexual content, here's what parents need to know about Bridgerton on Netflix. Bridgerton on Netflix-What Parents Need to Know Yikes. Where do I even begin? I was really looking forward to this particular series on Netflix. The series follows the Bridgerton family and friends as they navigate life and love during the Regency era. Not only did I read the series of books that it's based upon, but I love period dramas like Downton Abbey and Poldark. However, now that I've seen the first season of Bridgerton, I must say that I'm extremely disappointed. Here's what you need to know to help you decide whether or not Bridgerton is appropriate for kids, tweens, and teens. It's Rated TV-MA Bridgerton is rated MA which means that it's for mature audiences only. A TV-MA rating is usually reserved for TV shows which are suitable for adults and generally not suited for those under 17 years of age. That's because it can contain graphic violence, crude language, and sexual content. Bridgerton doesn't necessarily contain a lot of bad language or graphic violence, but it does contain A LOT of sexual content. More about that below. Language Overall, there's not a lot of bad language in the series, although some of the characters like to say different variations of the word f\*\*k. Likewise, the word b\*\*\*h is also used. Graphic Violence Graphic violence isn't really depicted in this series, although there is a duel between two characters and several boxing scenes. There's also a death, but nothing is shown on camera. There is, however, plenty of graphic sexual content..... Sexual Content This is where Bridgerton earns its MA rating. There are several explicit sex scenes. There is also a lot of nudity. I didn't think that anything could be as bad as The Witcher, but Bridgerton comes close to it. I would definitely think twice before allowing younger children to watch this series. Overall Thoughts I was extremely disappointed with this series, especially since I enjoyed reading the novels so much. There are noticeable differences between the book and the Netflix series. And while there are sex scenes in the novels, it pales in comparison to the sex scenes in the Netflix series. This series was so promising (especially with its diverse cast), but the nudity and sex was just too much. Bridgerton Season 2 Bridgerton Season 2 is now available to stream on Netflix. Click here for my parents guide. About Bridgerton From Shondaland and Creator Chris Van Dusen, Bridgerton follows Daphne Bridgerton (Phoebe Dynevor), the eldest daughter of the powerful Bridgerton family as she makes her debut onto Regency London's competitive marriage market. Hoping to follow in her parent's footsteps and find a match sparked by true love, Daphne's prospects initially seem to be unrivaled. But as her older brother begins to rule out her potential suitors, the high society scandal sheet written by the mysterious Lady Whistledown casts aspersions on Daphne. Enter the highly desirable and rebellious Duke of Hastings (Regé-Jean Page), committed bachelor and the catch of the season for the debutantes' mamas. Despite proclaiming that they want nothing the other has to offer, their attraction is undeniable and sparks fly as they find themselves engaged in an increasing battle of wits while navigating society's expectations for their future.
